

APPLICATION FOR A VACATION SCHOLARSHIP IN MATHEMATICS
January — February 2007

Please return the completed form to

Professor Ross Street, Mathematics Department, Macquarie University NSW 2109
by Friday 24 November 2006

Name: _____

Macquarie Student Number (if you have one): _____

CONTACT ADDRESS and TELEPHONE NUMBERS during December and January:

Macquarie University students do not need to supply their exam results as we will have these. The decision will be largely based on your exam results.

Students from other universities must send an academic transcript of their results so far, as well as a reference from an academic staff member of their university (email to <street@math.mq.edu.au> will suffice).

Students from other universities will also need to supply a letter from their own university declaring that the student will be covered by that universities workers compensation. This need not be sent at the time of the application but must be received by us before the scholarship is taken up.

Please complete page 2 of this form

We would like to know your interests. Please complete the following. This will not affect the success of your application but will provide us with a guide in allocating projects.

Circle up to 5 of the following areas that you think you might like to work in:

1. Abstract Algebra
2. Applied Mathematics
3. Analysis
4. Calculus
5. Differential Equations
6. Discrete Mathematics
7. Geometry
8. Linear Algebra
9. Logic and Set Theory
10. Mathematical Physics
11. Number Theory
12. Topology
13. Other

Indicate how much computing you would like to be involved in your project:

1. Just a little
2. A fair amount
3. A lot

If you wish to add any other information that might assist us in making our scholarship award or project allocation, please do so in the space below.
